

Tommy Miranda Ministries is fueled by Tommy Miranda's interminable passion to save the fallen people of this world by introducing them to God's love and incomparable grace. This foundations sole purpose is to restore the powerless and save the unredeemable. It's from that love and passion to do God's work that the " Se Quien Soy" women's conference was cultivated.

Tommy Miranda's goal was to have every woman desperate for a solution, drowning in her struggles and insecurities to have her prayers answered that day. Through some of the most anointed women of this generation that is precisely what took place. The conference kicked off with a bang as Dorcas Laboy delivered a powerful teaching reminding every women of God's anointing on their lives. As the day wore on, Monsie Soto alongside Wandy Romero and Linette Rivera all spoke in tune with God and were able to produce a compelling sermon that grasped and altered the hearts of every women there.

In between preachings women were able to lift their hands in surrender and reverence to God as the band Altisimo played a few worship songs. Moreover, early in the afternoon Judy Jacobs mounted the stage erupting with a rejuvenating word from God and worship.

Later that night, Judy once again stepped foot onto the altar with the fierceness and authority of a true woman of God. All along the aisles the Holy Spirit resonated into the souls of the women as cries of hallelujah rang all throughout the building. The devils stronghold on women's lives were broken and all iniquity was declared gone as Judy laid hands and anointed every person in the building.

February 1st for many women marks the day they became free from the bondages that restrained them from accomplishing God's will for their lives. The first, and certainly not last, Tommy Miranda Ministries women's conference fully enabled every person in attendance with the weapons to walk and strive in a relationship with God. Every broken heart was healed, all the hopeless and dead spiritually were given life, and every women left that night fully knowing who they are and the immense capacity for greatness God has given them.
